Question 1 - Climate science

The detrimental impact on energy bills for all UK citizens & voters

Question 2 - CO2 and greenhouse gas emissions

As beneficial.

Additional CO2 helps green the planet & generally increases crop yields.

Question 3 - Effort share

Why should our citizens be forced to participate in the socialist concept of wealth redistribution?

Ottmar Edenhofer - IPCC:

<https://www.azquotes.com/picture-quotes/quote-climate-change-policy-is-about-how-we-redistribute-de-facto-the-world-s-wealth-ottmar-edenhofer-73-67-68.jpg>

Question 4 - International collaboration

Charity begins at home.

Question 5 - Carbon credits

Why must UK citizens' energy prices be inflated to transfer money to rich subsidy-farm harvesters?

Question 6 - Hard-to-reduce sectors

Only when all politicians and CCC members have achieved personal zero-CO2 footprint, should you begin to consider imposing constraints on the rest of us voters

Question 7 - Greenhouse gas removal

Why bother?

Question 8 - Technology and innovation

Expensively.

Question 9 - Behavioural change

Try imposing harsh & expensive schemes, and see how quickly you'll get voted out of office.

Question 10 - Policy

Politicians first, then only when you lot have demonstrated the feasibility should extending the policy to the rest of us be considered

Question 11 - Costs, risks and opportunities

At zero.

Question 12 - Avoided climate costs

Fictional.

Question 13 - Devolved administrations

None
